DIARY NOTES

DD/S

WZ

6 March 1962

1. I talked to Mr. Whitton, Federal Highway Administrator, and requested that he make a prompt decision on the contract for our West Parking Lot. This matter had not been called to his personal attention before, and he assured me that he would expedite this action. (On Wednesday, 7 March, Jim Garrison told me at the DD/S Staff Meeting that they were going ahead and awarding the contract to the low bidder without reference to the Comptroller General.) *H*

25X1A9a

2. Since the Deputies' Meeting today was canceled, I submitted a memorandum to [REDACTED] on our parking situation with the hope that the Director would approve of parking on both sides of the road, except in front of the building, until our West Parking Lot was completed.

3. Due to the snow storm, all power was off [REDACTED] at 0900 hours today, and most employees were excused from work.
